AutoPower Company Profile

Established in 1978, AutoPower is the leader in providing “Profit by Intention” integrated warehouse distribution business systems. Our solutions provide new levels of supply-chain efficiency necessary for profitable Heavy-Duty Truck aftermarket distributors.

Headquartered in Lake Mary, Florida, AutoPower Corporation installations are found throughout North America unlocking profits for:

- **Single and Multi-Branch Heavy Duty Truck Warehouse Distributors**
- **Heavy-Duty Vehicle Service and Repair Centers**
- **Assembly Rebuilders**
- **Truck & Equipment Installers**

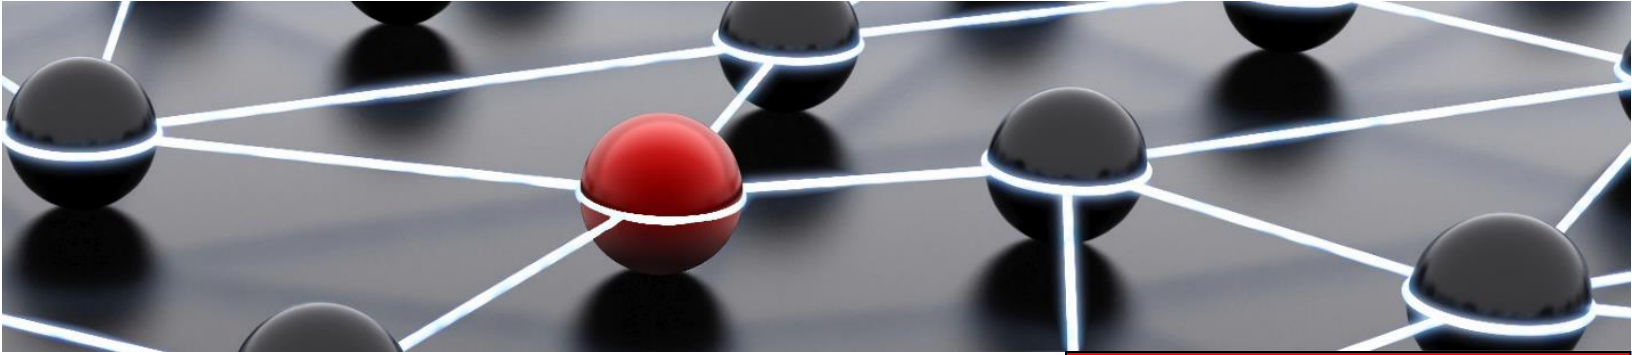

Our Focus on Industry Specific Solutions

For nearly four decades, AutoPower has worked with distributors to prioritize and institute proven ways to increase efficiency, provide great customer service and drive profitability.

AutoPower has become the go-to-company providing leading edge software that can be configured for the full range of company sizes in this industry. Companies with multiple branch locations, large and small inventories, and shop repair or rebuilding facilities will find numerous workflow configurations, features and benefits specific to their business. The exclusive nature of AutoPower’s “Profit by Intention” technology is designed to help these companies achieve greater efficiency, productivity and profits even in this era’s challenging and competitive environment.

Our Advanced Solutions

AutoPower has embraced the importance of companies in our industry to constantly improve. Technology has moved at a rapid pace and as a result AutoPower has taken an aggressive approach to develop and implement advanced software solutions encompassing inventory management, warehouse management, sales, service and remanufacturing functions.

The software contains advanced analysis tools that help companies increase productivity, reduce costs and improve their customer services. With the fully integrated accounting suite AutoPower provides a total enterprise wide management solution.

Our Services

AutoPower’s leadership is not only known for its world-class software, but also for its on-site or cloud-based IT infrastructure. AutoPower’s data-center hosts some of the most successful companies in the industry and is serviced by a team of certified experts with extensive experience in implementing and managing large-scale IT installations. AutoPower helps our clients to focus on business and not worry about the management and performance of their IT infrastructure. Services include, but are not limited to:

- Network Configuration
- Network Servers
- PCs
- Printers
- Server Hosting
- Wireless Internet
- Mobile Solutions
- Web Hosting
- Firewall Configuration
