SalesPower Mobile Sales Tool

SalesPower - AutoPower's Mobile Sales Tool enables your Sales Reps to process customer orders anywhere anytime. This tool is integrated directly into your AutoPower System in real-time using a 4G or Wireless connection and works with a tablet device wherever or whenever an internet connection is available. SalesPower is designed to help sales reps showcase your current promotions with real-time inventory and product information. Help your Sales Reps increase your revenue and meet their sales quotas with on-the-spot customer orders and services

Benefits of Mobile SalesPower

- Easy part searches
- Browse parts by manufacturer
- Display of part information availability, descriptions, alternates, supersedes, customer specific pricing
- Display of specials, featured and bargain parts
- Customer account information, open orders, invoice history
- Submit orders directly into the AutoPower System with shipto, shipvia and any special handling notes

Benefits for Management

- Easy-to-use mobile sales tool connects your sales representative directly to AutoPower System inventory and ordering ability
- Allows for continuous real-time presentation of your latest sales specials, featured parts and/or bargains
- Paperless accurate order delivery into the AutoPower System
- Accelerated sales cycles, inventory turns and revenues
- Great customer service with elevated customer satisfaction
- Built the way your sales team sells
- Focused on easy revenue-generation to meet sales quotas
- Works with any iOS, Android and/or Windows mobile tablets connected to the internet
